

SDG Interlinkages and Policy Coherence: Tools

Thérèse Yarde (Caribbean Community Secretariat)

Matteo Pedercini (Millennium Institute)

Zabi Rahat (Actknowledge)

17 GOALS TO TRANSFORM OUR WORLD

**What can
tools for
inter-linkages
and policy
coherence
help us to
do?**

- Make the most of limited resources and capacity, so that we can formulate interventions that are effective and efficient
- Identify and take advantage of synergies, to maximise the use of policy interventions that can have positive impacts in more than one area

**What can
tools for
inter-linkages
and policy
coherence
help us to
do?**

- Achieve a realistic perspective on areas where conflicts exist, and where trade-offs and compromises are necessary
- Make connections between low-profile goals and higher priority issues

**What can
tools for
inter-linkages
and policy
coherence
help us to
do?**

- Recognise linkages between the SDGs and existing sectoral, national and regional policies (and identify gaps)
- Strengthen inclusive, cross-sectoral policy-making and planning

**What can
tools for
inter-linkages
and policy
coherence
help us to
do?**

- Attain clarity on the roles different stakeholders can play in SDG implementation
- Create opportunities for internalization of the SDGs and foster a sense of ownership
- Generate a shared national vision
